

FACT SHEET – ASANJA GRUMETI - ‘SIRI BUSTANI’

ASANJA GRUMETI is situated in the Western Corridor of Serengeti National Park, the most famous National Park in Tanzania. The location has been perfectly chosen to offer our clients prime game viewing of the migration when they pass through the camp in June/July and August/September (this is subject to weather fluctuations).

The words ‘Siri Bustani’ means secret garden in Swahili language which is the main language used and spoken in Tanzania. Our camp is located right on the marsh and thus, it stays green throughout the year. The secret to this place is its remarkable transformation that continuously evolves with seasons. The flora and fauna around the camp is distinctive to its location as it attracts birds and animals even in its driest months.

The clients comfort and safety are our priority and all our staff, who are highly trained professional in their respective field of work, will go out of their way to guarantee the utmost level of hospitality. The cuisine at the camp are all fresh, scrumptious and delicious as we take pride in sourcing all ingredients fresh and local.
